precocious parr **616**
prediction **635**
prezygotic reproductive isolation **155**

QTL **198**
quantitative genetics **124, 422**
Quercus **130**

random genetic drift **657**
rarity **598**
RAPD, 117 **589**
Raphanus sativus **298**
reaction norms **459, 598**
realized pollen dispersal **142**
recombination **98**
recombination supression **339**
regression mapping **198**
reinforcement **339**
relationship **98**
reproductive investment **190**
reproductive systems **346**
restorers **518**
RFLPs **410, 500, 589**
Rickettsia **309**
rubber yield **650**
rye **580**

S-alleles **275**
salt tolerance **249**
Secale cereale **580**
seed colour **185**
selection **57**
selection response **103**
Salmo trutta **556**
self-incompatibility **254**
selfing **635, 642**
selfish genes **223, 233**
Senecio integrifolius **598**
sex determination **346**
sex difference **405**
sex ratio **518**
sex ratio evolution **573**
sex-ratio **573**
sexual selection **190, 291, 339**
sib selection **635, 642**
sibs **265**
Silene **518**
simulation **207**
single gene × polygene interaction **72**
single seed descent **635**
snails **244**
Solanum tuberosum **410**
somaclonal variation **355**
sorghum **500**
spatial dispersion **103**
speciation **155, 339, 625**
species invasions **490**
sperm precedence **155**
sporophytic self-incompatibility **275**
Sry **233**
sternopleural bristles **373**
sugar cane **500**
supernumerary chromosome segments **1**
swede **84**
symbiosis **309**
synapsis **580**
synteny **500**
systematics **117**

thelytoky **317**
Theobroma cacao L. 589

thermoregulation **471**
tilapia **117**
tomato **72**
trade-off **598**
transposable elements **377, 608**
Tribolium **155**
Trichogramma **317**
Trinidad guppy **291**
trioecy **346**
triple test cross **84**
Triturus **41**
tuber skin colour **410**
two-locus self-incompatibility polymorphism **262**

Urodeles **41**
Ursus arctos **480**

variation **471**
vigour **650**
virulence **309**
Viviparus **170**
VNTR **556, 616**

white-tailed deer **78**
wild radish **298**
wing pattern **459**
Wolbachia **317**

X-inactivation avoidance **233**

Y chromosome **223, 233, 573**
Y-linkage **518**
yield trial **113**
